BEST PRACTICES

7.2

1. Title of the practice- Leaf litter composting in the college campus.

Objectives of the practice:

Composting leaves is a terrific way to recycle and create nutrient rich garden soil. The benefits of leaf compost are numerous. The leaf litter compost increases fertility of soil. It also enhances soil porosity. The leaf litter compost makes a dark rich, earthy organic matter which retains soil moisture. Leaves are often referred to as nature's nutrient recyclers.

Context :

The college has spacious and well grown garden, having as many as 300 trees, shrubs and herbs. Lots of leaf litter is produced daily. Cleaning the daily leaf litter is tedious routine. As a green practice college has decided to produce leaf litter compost as a valuable source of soil nutrients.

The practice :

The amount of daily fallen leaves is estimated. To produce leaf litter compost the rectangular cement and brick tanks are constructed around the trees. The fallen leaves are directly collected in piles by sweeping the dry fallen leaves in to the piles. The mulching is done by adding cow dung slurry and water in between layers of dry

leaves. Some liquid urea is also added to enhance aerobic microbial action. The pile is covered with jute cloth. Periodically the leaf pile is stirred and water is added to maintain moisture level. The done leaf litter is harvested periodically after every 45 days and used for garden plants.

Evidence of success :

This extensive practice of composting of leaf litter suggests that leaf litter can be efficiently managed by converting it into manure. Sustainable management and utilization of leaf litter can be successfully applied in home gardening. Managing leaf litter by composting proposes an alternative approach to waste management since the leaf litter will neither be burnt nor be land filled. This also helps in reduction of air pollution produce by leaf litter burning. Different types of nutrient rich compost prepared by leaf litter can be further used for organic farming which results in increased productivity of crops. Leaf litter utilization and management will help in making the college campus areas cleaner and greener.

Resources required :

Leaf litter, cow dung manure, jute cloth, water, human recourse for collection of leaf litter, earth worm culture, vermicompost.

2. Title of the practice : Student of the Year

Objectives of the practise:

- ✓ To promote students for all round personality.
- ✓ To inculcate the habit of personal documentation.
- ✓ To have self-assessment of students.

The Context:

Most of the students are always participating in various competitions like elocution, poetry recital, debating, sports, cultural events etc. Not only these but many students are also participating in the social activities. They have hobbies like newspaper writing, painting, Singing etc. But all these activities are not able to record their contribution in academic Mark list. But these activities are most important part of their personality development. To have overall personality development all such activities are necessarily recorded and recognised by someone. This practice is one step ahead in this regard.

The Practice:

In the Second term of the year, college announces the scheme to award the student of year from each faculty. An application form is supposed to submit with all required documents as a proof and record. A committee of teachers (Teacher members of IQAC) constituted for these schemes scrutinize the application and verified the score. On the basis score achieved by them committee declares the student of the year and they are felicitated in the Annual Day programme by offering them a Memento and Certificate of Appreciation.

Evidence of Success:

Every year more than 40 students participate in this competition. Though, everyone could not win, but they get an opportunity to keep up their record updated and analyse themselves in quantitative manner.

Problems Encountered and Resource Requirement:

Only student of last year are made eligible for this scheme. Students participated in many activities in their school days but they won't find out the documents for the proof. No additional resources are required.
