This information isn't giving simply your head knowledge around the subject but so that you are better able to understand how and why you should respond to them and there threat in a certain way. The focus of the course is on understanding and adopting personal safety habits that will harden you as a target, and prevent you from appearing on predatory individual radars and if you are for whatever reason picked up and targeted, are able to understand their actions and behaviors which indicate that, they have harmful intent towards you and that you are in danger. - **Learning Outcome:**

The main goal of women's self-defense certificate course is to strengthen women's capacity to defend themselves against potential attacks.

Till today, the effects of women's self-defense course extend considerably beyond the objectives, including physical, psychological and behavioral impacts.

The learning outcomes from the certificate course in Self Defense Programme are:

- 1) **The students learnt about the different kinds of violence that may be faced by girls or by women in any place including at home.**
- 2) **The student participants got different self-protection tips on how to avoid/defend by attacking a potential attacker by using objects or by striking on the soft spots of the attacker, when subjected to physical abuse, violence, crime, etc.**
- 3) **The course concludes with a note on the promise from both the sides that these kind of courses will be continued in the times to come.**

- **Attendance**
