It is a moral affront to all women and girls and to us all, a mark of shame on all our societies, and a major obstacle to inclusive, equitable and sustainable development. At its core, violence against women and girls in all its forms is the manifestation of a profound lack of respect – a failure by men to recognize the inherent equality and dignity of women. It is an issue of fundamental human rights. The violence can take many forms – from domestic violence to trafficking, from sexual violence in conflict to child marriage, genital mutilation and femicide & it is an issue that harms the individual but also has far-reaching consequences for families and for society. Violence experienced as a child is linked to vulnerability and violence later in life. Other consequences include long-term physical and mental health impacts and costs to individuals and society in services and lost employment days. At the end of her address she given some suggestions is noted below.

Keynote Address - The Changing Dimensions and Nature of Indian Federalis

Keynote Speaker - Dr. Balgauda Patil

Session President - Dr. Rajendra Lavate

In the keynote address on “The Changing Dimensions and Nature of Indian Federalism”, Dr. Balgavya Patil said that Indian democracy is in the state of transition and it is our prime and moral responsibility to conserve and preserve our Indian ways of life. He appealed to all delegates and participants to work for the conservation of democracy as a trustee and stakeholder. An increasing decline in the vote casting in every consecutive election discourages us to defend and strengthen democracy. Political parties should play politics through tolerance. Opportunity for all-round and exhaustive development of the people should also be provided. All the opposite parties should also play its role actively and consciously. Presently, the nature of the Indian Federation dispute is also changing. From this, everyone should identify one’s moral responsibility. The keynote speaker further hoped that everyone of our deprived sections would be able to participate in the government and that the world's longest running democracy would once again be on the path of advancement and development.

Session II - Indian Constitution and Democracy

Resource Person- Dr. Deepa Shrivasthi

Session Chairperson: Dr. Nirmala More

In the second technical session, Dr. Deepa Shrivasthi expressed her views on the theme entitled “Constitution of India and Democracy in the Indian Constitution”. In the speech, she discussed how the world’s longest and most powerful constitution has been drafted and constituted. Besides she also expressed the views on the present challenges before the Indian Constitution and their impacts on Indian’s democracy. It is history that the intelligentsia works to strengthen the constitution and the system of each country. The Constitution of India gives every citizen of the country the opportunity to become the King of the country. Here from this that our Constitution aimed at bringing about political socialization on a large scale. The constitution of each country is the key to the existence of its citizens. Indian Constitution gives us power and prestige as a citizen of a prosperous country wherever we go in the world. But with the changing circumstances, the responsibility of defending the Indian Constitution has fallen on every Indian citizen. From this, every Indian citizen should know his role and defend the Constitution of India and the democracy as a national religion. The resource person called for the strong determination of the concept of inter-religious harmony and the concept of religion through secularism, the determination of humanism, socialism and the protection of democracy from within. Several doubts and questions of participants as well as the college students were solved by the resource person.

In the fourth session of the seminar, Prof. (Dr.) Ravindra Bhanage, Professor, Department of Political Science, Shivaji University, expressed his invaluable thoughts on the role of new voters in nation building. In his talk, Dr. Bhanage said that voting is a vow to express one's thoughts on this occasion and the power of transformation from global to local level is in the news. Women in India are very fortunate because with the independence of the country and with the implementation of the constitution, women in our country got the right to vote. It is the history that women in the United States, the world's superpower, had to fight for their rights. Voting is our moral responsibility to bring about change in the social order. With the time, the standpoint towards exercise of the vote is definitely changing. The future of the country is in the hands of the young generation. It is a failure of the world's largest democracy where we have to celebrate the voting holiday in our young country. The National Election Commission was established in 1950. The Constitution of India grants us the freedom to question the functioning of the Election Commission, which functions independently and impartially. Without questioning the transparency of the use of the voting machine, everyone must cast their vote for the betterment of their family community. Everyone should consider voting as the first duty and decide his or her role in national development because the Constitution of India gives us the right to vote without any effort. The resource person also hoped that the country would become a world political superpower.

BRIEF SUMMARY OF FREE DISCUSSION ON

DOMESTIC VIOLENCE: CAUSES, EFFECTS AND REMEDIES

Shikshan Maharshi Dr. Bapuji Salunkhe Forum "Muktapeeth" organizes open discussion on various current topics. The Muktapeeth organized debate on 'Domestic Violence: causes, effects and remedies' on Friday, 24th March, 2023.

22 students and faculty members from the department of NSS (Arts Stream) participated in this activity.

The session was introduced by Dr P B Thorbole and chaired by Hon. Principal Prof. (Dr.) S. S. Patil.

The students shared their views on the given topic of 'Domestic Violence: causes, effects and remedies'. Some of them talked about rights of people whereas many of them focused on duties of people.

The Constitution guarantees six fundamental rights to Indian citizens as follows: (i) right to equality, (ii) right to freedom, (iii) right against exploitation, (iv) right to freedom of religion, (v) cultural and educational rights, and (vi) right to constitutional remedies. Domestic violence is a criminal offence. The constitution gives all of us the right to live with a prestige. So, it was discussed that domestic violence is inhuman treatment to every woman in the world.

Some students talked about duties of people such as support and defend the Constitution, stay informed of the issues affecting your community, participate in the democratic process, respect and obey federal, state, and local laws; respect the rights, beliefs, and opinions of others; participate in your local community.

The President guided that follow properly the rights and duties as per the Indian constitution.

The program was also attended by Dr. B. M. Dahalake, Mr. P. J. Choudhari, and Mr. A. S. Tikke. The activity was carried by Dr. Satishkumar Padolkar, the Librarian Mr. Abhaykumar Patil and Dr. P. B. Thorbole. At the end, Mr. A. S. Tikke presented vote of thanks for the session.

- **Introduction**

The women's self-defense offline 10 Days training programme, of 20 hours that aims to introduce women to array of subjects that concern their personal safety, from sexual assaults to potentially abusive partners(both emotionally and physically) each topic looks at a separate issue of self-protection and personal safety. At the end of the program girls students should be empowered to predict, Identify and avoid violent situations and the individuals who designs and orchestrate them

This course isn't simply a list of do's and do not's , nor does prescribe a set of safety rules you should follow, instead it looks at educating and empowering you, so that you are able to make dynamic risk assessment of the situations you find yourself in where harmful intent may be present. To learn more about the self-defense, approach to personal safety/self-Defense, and how it differs from most other systems of self-protection, please.

The course will give you the information you need to help you predict, identify and avoid violence before it occurs. It will also provide you with lot of background information as to why predatory and aggressive individuals act and behave the way they do. This information isn't giving simply your head knowledge around the subject but so that you are better able to understand how and why you should respond to them and there threat in a certain way. The focus of the course is on understanding and adopting personal safety habits that will harden you as a target, and prevent you from appearing on predatory individual radars and if you are for whatever reason picked up and targeted, are able to understand their actions and behaviors which indicate that, they have harmful intent towards you and that you are in danger. With this advice warning you can put into play strategy for extra acting yourself from the situation.

- **Objective of the course**

Violence against women is a serious and widespread issue throughout the world. Right now, while the long term goal is education to stop violence against women, there are actionable strategies women can employ.

1. **To educate the girl students about the different types of violence against them.**
2. **To provide knowledge about the different tips of self-protection to keep in mind in different situations.**
3. **To show case and give demo on different self-defense techniques.**
4. **To educate girl how to take control for yourself and other women.**
5. **Teach girl student to use their own strengths and confidence by learning different types of yoga.**

- **Themes of the course**

1. Personal Safety and security
2. Street fighting for self defence
3. Knockout fight for self defence
4. Lathi-kathi Training for personal safety
5. Basic strategies to defend yourself
6. Different techniques for ensure your survival
7. Mental self-defence through pranayama
8. Self-defence mind-set
9. Yoga and pranayama for strengthening self-confidence.

- **Duration of course**

20 hours in 10 days.

Learning Outcome:

The main goal of women's self-defense certificate course is to strengthen women's capacity to defend themselves against potential attacks.

Till today, the effects of women's self-defense course extend considerably beyond the objectives, including physical, psychological and behavioral impacts.

The learning outcomes from the certificate course in Self Defense Programme are:

- 2) The students learnt about the different kinds of violence that may be faced by girls or by women in any place including at home.
- 3) The student participants got different self-protection tips on how to avoid/defend by attacking a potential attacker by using objects or by striking on the soft spots of the attacker, when subjected to physical abuse, violence, crime, etc.
- 4) The course concludes with a note on the promise from both the sides that these kind of courses will be continued in the times to come

विषय: “चमत्कार व त्यामागील वैज्ञानिक सत्यशोधन”

अहवाल

महाराष्ट्र विवेक वाहिनी, अग्रणी महाविद्यालय योजना, अंतर्गत गुणवत्ता हमी कक्ष व अंधश्रद्धा निर्मूलन समिती, जत यांच्या संयुक्त विद्यमाने “चमत्कार व त्यामागील वैज्ञानिक सत्यशोधन” या विषयावर मंगळवार, दि. १८ ऑक्टोबर, २०२२ रोजी एकदिवसीय कार्यशाळेचे आयोजन करण्यात आले होते. या एकदिवसीय कार्यशाळेत प्रमुख मार्गदर्शक म्हणून महाराष्ट्र अंधश्रद्धा निर्मूलन समिती, सोलापूर जिल्हा कार्याध्यक्ष मा. श्री. विनायक माळी हे उपस्थित होते. यावेळी विद्यार्थ्यांना मार्गदर्शन करताना ते म्हणाले, “मनुष्याने विज्ञानाची सृष्टी स्वीकारली परंतु वैज्ञानिक दृष्टी अद्याप स्वीकारलेली नाही. भारतीय संविधानात धर्माचे व उपासनेचे स्वातंत्र्य आहे परंतु देव-धर्माच्या नावाने कोणाचे शारीरिक, मानसिक व आर्थिक शोषण केले जात असेल तर तेथून पुढे अनिस चे काम सुरु होते.” यावेळी त्यांनी चमत्कारविषयक अनेक प्रात्यक्षिके विद्यार्थ्यांसमोर सादर केली व विद्यार्थ्यांच्या प्रत्येक शंकेचे निरसन केले.

या कार्यशाळेच्या अध्यक्षस्थानी राजे रामराव महाविद्यालय, जत चे दुपार सत्राचे प्रभारी प्रा. एम.एच. करेनवर हे होते. आपले अध्यक्षीय मनोगत व्यक्त करताना ते म्हणाले, “भोंदू लोकांपासून सावधगिरी बाळगायला हवी. अशा लोकांचे भाषेवर प्रभुत्व असल्याने ते सर्वसामान्य नागरिकांना हिप्नोटाईझ करतात. तिथेच आपली फसगत होते. श्रद्धा ठेवा परंतु अंधश्रद्धा बाळगू नका. डोळस होवून समाजाकडे पहा.”

या कार्यशाळेला प्राध्यापक, विद्यार्थी व सामाजिक कार्यकर्ते यांचा उदंड प्रतिसाद लाभला. या एकदिवसीय कार्यशाळेचे सूत्रसंचालन प्रा. अतुल टिके यांनी केले. प्रास्ताविक व पाहुण्यांचे स्वागत महाराष्ट्र विवेक वाहिनी समितीचे समन्वयक डॉ. सतीशकुमार पडोळकर यांनी तर आभार अग्रणी महाविद्यालय योजनेचे समन्वयक प्रा. एच.डी. टोंगारे यांनी मानले. या एकदिवसीय कार्यशाळेसाठी अंतर्गत गुणवत्ता हमी कक्षाचे समन्वयक डॉ. शिवाजी कुलाळ व महाविद्यालयाचे प्राचार्य प्रा. (डॉ.) सुरेश एस. पाटील यांचे मार्गदर्शन व सहकार्य लाभले.

Report on Work shop -Legal Advice on Anti-Ragging

In the current era of competition, the youth should stay away from the temptation to build a prosperous and bright future for their own sake. They should keep in mind that many people are making sacrifices for their own sake. One mistake made by them at this age of youth can destroy the dreams of many people along with them. Judge Mr.E.K. Lawyer Reur gave information about the traffic regulations in his light-hearted and fluent style, urged people to take care of their lives and others by strictly following the traffic rules and expressed his opinion about the new traffic law and the nature of the punishment for violating it.

In the third session of the workshop, Mr. Mundecha, a senior lawyer, while giving detailed information about the anti-narcotic laws, appealed to people to make their birth worthwhile by contributing to sustainable nation-building rather than succumbing to addictions during the youth.

JAT Associate Civil Judge Mr. A. B. Jadhav gave guidance about the opportunities for the competitive examination in judicial field and appealed to complete preparation for the examination during the graduation period itself.

Learning Outcome:

The main goal of women's self-defense certificate course is to strengthen women's capacity to defend themselves against potential attacks.

Till today, the effects of women's self-defense course extend considerably beyond the objectives, including physical, psychological and behavioral impacts.

The learning outcomes from the certificate course in Self Defense Programme are:

- 2) The students learnt about the different kinds of violence that may be faced by girls or by women in any place including at home.**
- 3) The student participants got different self-protection tips on how to avoid/defend by attacking a potential attacker by using objects or by striking on the soft spots of the attacker, when subjected to physical abuse, violence, crime, etc.**
- 4) The course concludes with a note on the promise from both the sides that these kind of courses will be continued in the times to come**

Report of Webinar on Patents and Patent Filing Process

Intellectual Property Rights (IPR) & Industrial Academia Collaboration Cell, and IQAC of Raje Ramrao Mahavidyalaya, Jath, Dist: Sangli, Maharashtra, India had successfully organized 'Webinar on Patents and Patent Filing Process' on Thursday, 22nd July 2021. About 281 participants have actively participated in the webinar. A Resource Person was Dr. Prakash Arun Bansode, Associate Professor, Department of Chemistry, Sangola College Sangola, Dist: Solapur, Maharashtra, India.

He discussed on the intellectual property rights including patents, copyright, industrial design rights, trademarks, plant variety rights, trade dress, geographical indications, and in some jurisdictions trade secrets. A patent is a form of right granted by the government to an inventor or their successor-in-title, giving the owner the right to exclude others from making, using, selling, offering to sell, and importing an invention for a limited period of time, in exchange for the public disclosure of the invention. An invention is a solution to a specific technological problem, which may be a product or a process and generally has to fulfil three main requirements: it has to be new, not obvious and there needs to be an industrial applicability. To enrich the body of knowledge and stimulate innovation, it is an obligation for patent owners to disclose valuable information about their inventions to the public. These exclusive rights allow owners of intellectual property to benefit from the property they have created, providing a financial incentive for the creation of an investment in intellectual property, and, in case of patents, pay associated research and development costs.

Organizing Committee members Dr. Sanjay S. Latthe, Dr. B. M. Dahalake, Dr. S. G. Gavade, and Dr. Shivaji R. Kulal were present during the webinar. Prin. Dr. Suresh S. Patil has addressed on the importance of the Patents and Patent Filing Process in coming days. Dr. B. M. Dahalake has given the vote of thanks.

Report on National Workshop on Intellectual Property Rights (IPR): Copyright and Trademarks

Shri Swami Vivekanand Shikshan Sanstha's, Raje Ramrao Mahavidyalaya, Jath, Dist: Sangli – 416404, Maharashtra, India, (Affiliated to Shivaji University, Kolhapur), Research and Innovation Committee and IQAC has organized a National Workshop on Intellectual Property Rights (IPR): Copyright and Trademarks on Day and Date: Thursday, 13th January 2022 Time: 12 to 04 PM at Venue: Schrodinger Hall, Department of Physics. The Resource Person was Dr. Kishor V. Gaikwad, Assistant Professor, Dept. of Chemistry, Rajarshi Chhatrapati Shahu College, Kolhapur – 416005, Maharashtra, India. The President of the function was Prof. (Dr.) Suresh S. Patil, I/C Principal, Raje Ramrao Mahavidyalaya, Jath, Maharashtra, India. Organizing Committee members were also present during the workshop as Dr. Sanjay S. Latthe, Dr. S. G. Gawade, Dr. B. M. Dahalake, and Dr. S. R. Kulal.

Dr. Kishor V. Gaikwad explained as the Copyright protects original work, whereas a trademark protects items that distinguish or identify a particular business from another. Copyright is generated automatically upon the creation of original work, whereas a trademark is established through common use of a mark in the course of business. A brand is a marketing concept that encompasses how people feel about your product or service. Customers associate certain elements with different brands, such as reputation, image, and emotion. For example, a certain brand might have been developed to encourage you to feel confident, calm, or secure. On the other hand, a federal trademark registration can provide nationwide legal protection for your brand in connection with particular goods or services. It is your choice whether to protect your brand under trademark law. Many business owners choose to protect their brand names for their main or dominant goods or services. You might also choose to protect a slogan or logo for those goods or services, if you have one. Total of 63 participants including faculty and students were present during the workshop.

Vote of thanks was given by committee member Dr. B. M. Dahalake. Few questions were exchanged by the students and the resource person have answered them smoothly.

General Information

Many common household products contain chemicals that can cause injury or death if they are not handled, stored, or used properly. Some of the household products that contain hazardous chemicals are oven cleaners, tile cleaners, toilet-bowl cleaners, liquid drain openers, antifreeze, chrome-wheel cleaners, rust removers, gasoline, motor oil, lead paint, turpentine, lacquer thinner, and muriatic acid. These safety precautions can help keep you and your family safe.

Aims and objectives of the Workshop

1. To realize that chemicals and potential toxics are all around us
2. We can make a choice whether or not to use some of these chemicals
3. Understand that it is important to read the label on products
4. Understand that people have different philosophies about risk-taking

Outcomes

1. Participants should gain a deeper understanding of the household chemicals they commonly use, their ingredients, and their potential risks and benefits.
2. One of the key outcomes should be an improved awareness of safety precautions and best practices when handling household chemicals. This includes understanding the importance of proper storage, labelling, and disposal.
3. Participants should acquire practical skills related to the safe preparation and use of household chemicals. This may include mixing, diluting, and measuring chemicals accurately.
4. For those who use household chemicals in their work, such as housekeepers or janitors, the workshop can lead to improved productivity and efficiency in performing their tasks.
5. The workshop can promote environmental responsibility by educating participants about the impact of household chemicals on the environment and encouraging the use of eco-friendly alternatives.
6. Participants may learn how to prepare household cleaning solutions or chemicals at a lower cost than buying commercial products, leading to potential cost savings.
7. Understanding the correct handling and usage of household chemicals can reduce the risk of accidents, injuries, or harmful exposures in homes and workplaces.
8. Participants may feel more confident and empowered to take charge of their cleaning and maintenance tasks, knowing they have the knowledge and skills to handle household chemicals safely.
9. Properly prepared household chemicals can contribute to a healthier and cleaner living environment, which can lead to improved health and hygiene for individuals and their families.
10. Workshops often provide opportunities for participants to connect with peers and experts in the field, fostering collaboration and information sharing.
11. Some workshops may include assessments or certifications to measure the participants' understanding and competence in handling household chemicals.
12. The outcomes can also include gathering feedback from participants to improve the workshop for future sessions.

General Information:-

Computing, in the sense of doing mathematical calculations, is a skill that mankind has developed over thousands of years. Programming, on the other hand, is in its infancy, with a history that spans a few decades only. Both topics are vastly comprehensive and usually taught as separate subjects in educational institutions around the world, especially at the undergraduate level. This training is about the combination of the two, because computing today becomes so much more powerful when combined with programming. Most universities and colleges implicitly require students to specialize in computer science if they want to learn the craft of programming, since other student programs usually do not offer programming to an extent demanded for really mastering this craft.

Aims & Objectives:

As a result of taking the Hands on Training On “Mathematical Computation Using Python”, participants will be able to:

1. How to use the Python software.
2. To develop programming skills, you may extend the flexibility of existing software packages by combining them.
3. Insight in programming and the mathematics behind is fundamental for understanding complex software, avoiding pitfalls, and become a safe user.
4. Bugs (errors in computer code) are present in larger computer programs (also in the ones from the shop!).
5. Lots of skilled people around the world solve computational problems by writing their own code and offer their code for free on the Internet.

Description about the Programme:

Department of Mathematics and Statistics of Raje Ramrao Mahavidyalaya jointly organized One Day Hands on Training on “MATHEMATICAL COMPUTATION USING PYTHON” on 14th May 2022. Total 29 participants registered for the training. The training was inaugurated at 11:00 am with the inspiring message of Sanstha Prayer. For the inaugural function, Hon’ble Prof. Dr. S. S. Report on “One Day International Symposium on Advances in Photocatalysis”

Department of Physics, Research and Innovation Committee and Internal Quality Assurance Cell (IQAC), Raje Ramrao Mahavidyalaya, Jath has organized “One Day International Symposium on Advances in Photocatalysis” on Wednesday, 13th April 2022. During Inaugural Function, President of the Inaugural Function, Prof. Dr. Suresh S. Patil, I/C Principal, Raje Ramrao Mahavidyalaya, Jath has expressed the uses of Photocatalysis. Chief Guest of the Inaugural Function, Prin. Dr. R. V. Shejawal, Joint Secretary (Administration), Shri Swami Vivekanand Shikshan Sanstha, Kolhapur told that photocatalysis is an advanced technique that transforms solar energy into sustainable fuels and oxidizes pollutants via the aid of semiconductor photocatalysts. Among the various methods, the combination of semiconductors with metal nanoparticles, especially with noble metal nanoparticles, has recently aroused great attention. Dr. Shivaji R. Kulal, IQAC Coordinator, Raje Ramrao Mahavidyalaya, Jath has delivered vote of thanks.

Prof. Dr. Norihiro Suzuki, Photocatalysis International Unit / Space Colony Unit Research Center for Space System Innovation (SSI), 2641 Yamazaki, Noda, Chiba 278-8510, Tokyo University of Science, Japan has delivered online invited talk on Synthesis of Mesoporous TiO₂/BDD Hybrid and its Application toward an Efficient Water Purification. Dr. Nitish Roy, Department of Chemistry, Raja Rammounpur, Dist-Darjeeling, West Bengal, University of North Bengal India has delivered online invited talk on Photoexcited Charge Carriers in the Semiconductors for Sustainable Energy Conversion and Environmental Remediation Applications.

Both the resource persons discussed on the recent advancements in the design of heterostructure photocatalysts including alloy quantum dots based composites, carbon based composites including carbon nanotubes, carbon quantum dots, graphitic carbon nitride, and graphene, covalent–organic frameworks based composites, metal based composites including metal carbides, metal halide perovskites, metal nitrides, metal oxides, metal phosphides, and metal sulfides, metal–organic frameworks based composites, plasmonic materials based composites and single atom based composites for CO₂ conversion, H₂ evolution, and pollutants oxidation.

During Valedictory Function, Dr. Sanjay S. Latthe Organizing Secretary, Department of Physics, Raje Ramrao Mahavidyalaya, Jath has expressed the gratitude towards 269 participants, 02 resource persons and staff of the college.

One Day International Symposium on Advances in Photocatalysis

Day and Date: Wednesday, 13th April 2022 Venue: Online through Google Meet

Photocatalysis: One of the most promising approaches for preserving future energy generation looks to be hydrogen production using renewable energy as the primary source. Photocatalysis is a method of producing hydrogen that includes the interaction of sunlight with semiconducting materials. In the past few decades, photocatalytic water splitting has attracted increasing attention, and extensive efforts have been made to construct efficient heterogeneous water-splitting systems. Hydrogen has a lot of potential to become one of these fuels if it can be generated inexpensively and with the least amount of harmful emissions from renewable or large sources. Therefore, the great challenge is to create a photocatalytic system that can efficiently use sunlight as an energy source and water as a substrate to make hydrogen through a splitting process that also produces oxygen.

Dr. Arun Adsul, the former vice-chancellor of SPPU, Pune, Dr. R. S. Mali, , the former vice-chancellor of KBC Uttar Maharashtra University, Jalgaon, Dr. B. M. Hirdekar, the former registrar of SGU, Kolhapur and other eminent scholars actively participated in the seminar.

The principal of Raje Ramrao College, Dr. V. S. Dhekale welcomed all the guests and participants. He underscored that the main theme (“Whose Exam Exactly It Is During the Covid-19 Pandemic?”) of the seminar is a current burning topic and there is an urgent need of a deeper level discussion on this topic. Most of the guest speakers supported and expressed their opinion in favour of the conduction of exam during the during Covid-19 pandemic.

Many participants also actively expressed their views regarding the conduction of exam during the during Covid-19 pandemic. It was a fruitful discussion on the conduction of exam during the during Covid-19 pandemic. Many suggestions were sent to government of Maharashtra. Dr. S. R. Kokare expressed vote of thanks.

Report of Webinar on Single Crystal Perovskites: Next Wave of Photovoltaic Technology

Department of Physics, Raje Ramrao Mahavidyalaya, Jath, Dist: Sangli, Maharashtra, India had successfully organized Webinar on Single Crystal Perovskites: Next Wave of Photovoltaic Technology on Sunday, 14th June 2020. About 156 participants have actively participated in the webinar. A Resource Person was Dr. Murali Banavoth, Assistant Professor, Solar Cells and Photonics Research Laboratory, University of Hyderabad, Central University, Hyderabad – 500046, Telangana State, India.. He discussed on the growth of high-quality single-crystal (SC) perovskite films which has a great strategy for the fabrication of defect-free perovskite solar cells (PSCs) with photovoltaic parameters close to the theoretical limit, which resulted in high efficiency and superior stability of the device. Plenty of growth methods for perovskite SCs are available to achieve a maximum power conversion efficiency (PCE) surpassing 21% for SC-based PSCs. However, there is still a lot of room to further push the efficiency by considering new crystal growth techniques, interface engineering, passivation approaches, and additive engineering. During the webinar, the participants, have exchanged the questions, cleared their doubts and discussed new ideas emerging in the Photovoltaic Technology.

Organizing Committee members were Dr. Sanjay S. Latthe, Dr. Shrikant R. Kokare, Dr. A. K. Bhosale, Dr. Shivaji R. Kulal, Mr. Rajaram S. Sutar and Mr. Vishnu S. Kodag. Prin. Dr. V. S. Dhekale has addressed on the importance of the Photovoltaic Technology in coming days. Dr. S. S. Latthe has given the vote of thanks.

Inauguration of the Function

The slide is a promotional poster for a webinar. At the top, it features the motto "Dissemination of Education for Knowledge, Science and Culture" and the name of the institution: "Raje Ramrao Mahavidyalaya, Jath". Below this, it provides the address: "Dist. Sangli - 416404, Maharashtra, India" and notes it is "Affiliated to Shivaji University, Kolhapur". A central graphic shows a sun rising over a landscape with a portrait of a man in a turban. The word "Welcome" is written in a stylized font. The main title of the webinar is "Single Crystal Perovskites: Next Wave of Photovoltaic Technology", with the date and time: "Date & Time: Sunday, 14th June 2020 at 10.00 AM". It is organized by the "Department of Physics and IQAC". A circular inset shows a portrait of Dr. Marali Banavoth, the resource person, who is an Assistant Professor at the Solar Cells and Photonics Research Laboratory, University of Hyderabad, Central University, Hyderabad - 500048, Telangana State, India. On the right side of the slide, there is a vertical strip of small video thumbnails showing participants in a Zoom meeting.

Photographs during the Webinar

The screenshot shows a presentation slide titled "Solar Energy and Working Principles". On the left, there is a diagram comparing energy sources: "Natural Gas" and "Coal" are shown as boxes, with "Natural Gas" labeled "Renewable Energy" and "Coal" labeled "Non-renewable energy". A central diagram shows solar rays hitting a solar panel, with the text "Solar Energy Conversion". To the right, a "Solar Constant" legend lists energy ranges from 940-980 to >2300. Below this is a world map with a color-coded overlay representing solar energy potential. At the bottom left, a diagram titled "EARTH'S ENERGY BUDGET" shows energy flows between the sun, atmosphere, and ground. Text on the slide states: "The world burned energy at a rate of 10-20 TW in 2007. How fast will we burn energy in 2050? If we use energy like in U.S. we will need 30 TW. Conventional sources 20-30 TW". On the right side of the slide, there is a small video window showing a man speaking.

Perovskites Photovoltaics

Temperature-induced Lattice Relaxation Affects Performance

Project: Enhancing solar cell performance: Temp. Effect

Albeit improvements focused on state-of-the-art technology progress is yet to be made in understanding the actual operational temperature on the electronic properties and the device performances. The substantial effect of temperature on the optoelectronic properties, charge separation, charge recombination dynamics and photo conversion efficiency (PCE) are explored.

Perovskites Photovoltaics

Temperature-induced Lattice Relaxation Affects Performance

Surface Restructuring: Exploring true Behavior of Perovskites

- Visualization of surface transformation of perovskite single crystals.
- formation of a hydrated layer (polycrystalline-like structure) on the surfaces of single crystals and hence the formation of grain boundaries.
- Providing new insights to optimize surface quality and stability of crystals
- Resolving integration challenges in perovskite monocrystalline solar cells.

This screenshot shows an Excel spreadsheet with a green header bar. The ribbon includes 'Home', 'Insert', 'Page Layout', 'Formulas', 'Data', 'Review', 'View', and 'Help'. The spreadsheet contains a list of names in column A, with corresponding data in columns B through Z. The data appears to be organized into several columns, possibly representing different categories or time periods. The text is small and difficult to read, but the structure is clear.

This is another screenshot of an Excel spreadsheet, similar to the one above. It shows a list of names in column A and various data points in columns B through Z. The interface is consistent with the previous screenshot, featuring the same ribbon and header bar. The data is organized in a similar manner, with names listed vertically and their corresponding information in adjacent columns.

मिंटिंगमध्ये कसे सहभागी व्हावे या विषयी टिप्स ...!

- 1) घरामध्ये आपण शक्यतो वस्तूंच्या जागा ठरवल्या असतात, त्याचप्रमाणे **व्हिडीओ कॉन्सर्टी बसण्याची जागा ठरावा.**
- 2) तुमच्या **चेहऱ्यावर प्रकाश** येईल अशी जागा असावी. तुमच्या मागे प्रकाश असल्यास चेहरा दिसत नाही.
- 3) त्या ठिकाणी **इंटरनेट रॅज** चांगली येत असावी.
- 4) तुमच्या **चेहऱ्याच्या रेषेत मोबाईल / लॅपटॉप** येईल असे बसावे. खाली मोबाईल ठेवल्यास तुम्ही फारच भव्य दिसता...आणि चेहऱ्यापेक्षा उंचावर धरून पाहिल्यास तुम्ही झोपल्यासारखे दिसता.
- 5) शक्य झाल्यास **मोबाईल मध्ये इपरफोन जॉईन** करून वापरावे म्हणजे आवाज व्यवस्थित येईल.
- 6) आपण सर्वांना दिसणार आहात **कपडे व्यवस्थित** असावे.
- 7)कॉल सुरू असताना **खाऊ नये** मात्र पाण्याचा ग्लास जवळ भरून ठेवावा. म्हणजे जास्त वेळ मिंटिंग असल्यास उपयोग करता येईल.
- 8) शक्यतो आपल्या रूम मधील टीव्ही, रेडिओ ई, **आवाज करणारी उपकरणे बंद ठेवावी.**
- 9) मोबाईल **बॅटरी चार्ज** करून ठेवावी.
- 10) आपण जे **एप वापरणार आहात ते डाउनलोड करून त्याची माहिती अगोदरच करून घ्यावी.**
- 11) **मिंटिंग आय डी व पासवर्ड वेगळ्या कागदावर लिहून ठेवावा.** म्हणजे लॉग इन करताना सोपे जाईल.
- 12) काही वेळा **लॉग इन करताना आपले नाव लिहिणे** आवश्यक असते. ते लिहावे म्हणजे मिंटिंग दरम्यान आपणाशी संवाद साधणे सोपे होते.
- 13) मिंटिंग दरम्यान **व्हिडीओ सुरू ठेवावा व माईक बंद ठेवावा.** तसेच याबाबतच्या होस्टने दिलेल्या सूचना पाळाव्यात.
- 14) एकदम सगळे बोलू लागल्यास ऐकू येत नाही. म्हणून आपल्याला **एखादा मुद्दा बोलायचा असल्यास बोट वर करावे अथवा चिन्हाचा वापर करावा.**
- 15) मिंटिंग निगडित काही नियम ठरवले असल्यास त्यास सहकार्य करावे.

ABSTRACT

*Nature has a reservoir of more than 500 colour yielding plants. India is a major exporter of herbal dyes as production of some of synthetic dyes in developed countries is banned due to environmental pollution problem. This paper deals with the study of ink formulation from natural colorants. Ink is a liquid or paste that contains pigments or dyes and is used to color a surface to produce a text, picture or design. As we know, colourant is a most important part of any ink, it may be synthetic or a natural. Day by day human become more aware about demerits of synthetic inks and it's adverse effects on health of people. In this study an attempt was made to generate water based ink with simple aqueous method using Malabar spinach (*Basella alba*), Yellow trumpetbush (*Tecoma stans*) and Neem (*Azadiractaindica*). These natural inks are different from synthetic inks. However environmental issue in production and application of synthetic inks revived the consumer interest towards the natural inks.*

Keywords: Natural Colorants, Natural inks, *Basella alba*, *Tecoma stans*, *Azadiractaindica*.

Report of Fifth International Conference (Online) (ICAMS – 2020)

Post-Graduate Department of Physics, Raje Ramrao Mahavidyalaya, Jath, Dist: Sangli, Maharashtra, India had successfully organized Fifth International Conference on Advances in Materials Science (Online) (ICAMS - 2020) during 06th – 07th June 2020. About 324 researchers from India and abroad (including China, Poland, United Kingdom, Japan, Thailand and India) participated in online ICAMS 2020. A keynote talk, 07 invited talks, and 18 oral presentations were scheduled during the conference. We have received 172 abstracts focused on materials science, especially in materials for solar energy and supercapacitors, polymer based functional coatings, self-cleaning materials, aerogels, photocatalytic materials, ferrites, ferroelectric and dielectric materials.

On Saturday, 06th June 2020, a day started with inauguration with address by chief guest Hon'ble Prof. (Dr.) Pramod S. Patil, Head, Dept. of Physics, Shivaji University, Kolhapur, Maharashtra, India. Hon'ble Prin. Dr. R.V. Shejwal Joint Secretary (Finance), Shri Swami Vivekanand Shikshan Sanstha, Kolhapur, Maharashtra, India also addressed the participants. President of the function, Hon'ble Prin. Dr. V. S. Dhekale, I/C Principal, Raje Ramrao Mahavidyalaya, Jath has introduced the institute. In the first session, a key note address was delivered by Prof. Shanhu Liu, Henan Key Laboratory of Polyoxometalate Chemistry, Henan University, China on “Spatial Compartmentalization of Cobalt Phosphide in P-Doped Dual Carbon Shells for Efficient Alkaline Overall Water Splitting”. Prof. P. Kanjanaboos, Materials Science and Engineering, Mahidol University, Bangkok, Thailand has delivered invited talk on “Solvent Engineering Techniques for Perovskite Optoelectronics”. Dr. Nanaso Thorat, Wroclaw University of Science and Technology, Wroclaw, Poland has delivered invited talk on “Hybrid Nanoplatfoms for Magnetic and Light-activated Cancer Therapies”. The next session was followed by oral presentation.

On Sunday, 07th June 2020, Dr. H. Enis Karahan, iCeMS Research Building, Kyoto University, Yoshida Honmachi, Japan has delivered invited talk on “Graphene-based Antimicrobial Materials for Biomedical and Environmental Applications”. Dr. Sovann Khan, Photocatalysis International Research Center, Tokyo University of Science, Japan has delivered invited talk on “Defect/bandgap engineering for improving photocatalytic activities of TiO₂ and ZnS nanoparticles”. Dr. Bhalchandra Kakade, SRM Institute of Science &

Technology, Kattankulathur, Chennai, India has delivered invited talk on “Noble Metal-free Electrocatalysis: A Sustainable Approach towards Energy Conversion”. Prof. P. Sudhagar, Group Leader, Multi-functional Photocatalyst & Coatings Group, Swansea University (Bay Campus), Wales, United Kingdom has delivered invited talk on “Solar Catalysts for Tackling Globally Challenging Issues: Water, Air, Energy”. The next session was followed by oral presentation. During the all technical sessions, oral presentations, the participants, researchers and scientists have exchanged the research ideas, cleared their doubts and discussed new ideas emerging in the Materials Science.

In the valedictory function, chief guest, Hon’ble Dr. Ashok U. Ubale, Joint Director of Higher Education (Kolhapur Region), Maharashtra, India, Hon’ble Prin. Dr. Yuvraj A. Bhosale, Joint Secretary (Administration), Shri Swami Vivekanand Shikshan Sanstha, Kolhapur, Maharashtra, India and President of the function, Hon’ble Prin. Dr. V. S. Concentration and temperature dependent structural, opto-photocatalytic Properties of MoO₃ Thin Films by Thin layer pyrolysis

Nandini Kulkarni, Pratiksha Kulkarni, Anurag Kulkarni, Manoj Kulkarni, Anurag Kulkarni, Pratiksha Kulkarni, Nandini Kulkarni

Abstract: The structural, opto-photocatalytic properties of MoO₃ thin films were investigated by thin layer pyrolysis. The structural properties were studied by XRD, FTIR, SEM, and TEM. The opto-photocatalytic properties were studied by UV-Vis, PL, and photocatalytic activity. The results show that the structural, opto-photocatalytic properties of MoO₃ thin films are dependent on the concentration and temperature of the pyrolysis process. The photocatalytic activity of MoO₃ thin films is also dependent on the concentration and temperature of the pyrolysis process.

BRIEF SUMMARY OF NATIONAL WORKSHOP

Internal Quality Assurance Cell (IQAC), Raje Ramrao Mahavidyalaya, Jath successfully organized One Day Workshop on “Intellectual Property Rights (IPR): Patent, Plagiarism, Copyright and Trademark” on Wednesday, 26th Feb., 2020. In order to acquaint teaching faculty with the importance of Intellectual Property Rights (IPR), its application in various sectors, its various types and its application in academic ventures and practices, the present One Day Workshop was conducted in the college. The One Day Workshop proved to be beneficial because it offered several guidelines regarding the making patent, avoiding plagiarism, the copyright acts and the use of various references for academic research work.

Total 44 teaching faculty participated in the workshop. Total three technical sessions were organized in the present workshop.

The keynote speaker Prin Dr. V. S. Dhekale elucidated that IPRs legally protect the rights of the author or creator (innovator) who have transformed his ideas into property. In other words, legal rights are provided to stop others particularly pirates, imitators from taking credit of the original creator.

In the second technical session, Dr. S. R. Kokare explained that IPR Intellectual Property Rights provide certain exclusive rights to the inventors or creators of that property, in order to enable them to reap commercial benefits from their creative efforts or reputation. There are several types of intellectual property protection like patent, copyright, trademark, etc.
